MISSION: POSSIBLE AGENTS

WORKING AROUND THE CLOCK TO BUILD YOUR REPUTATION

**These AI Agents* never take breaks, never sleep, and never forget to follow up.
Here's what each one is hired to do for your business!**

ROBIN (WEB CHAT)

AI CUSTOMER ASSISTANT

GOAL: Turn website visitors into customers by starting real-time conversations that drive leads and reviews.

- Greet visitors instantly and answer questions 24/7.
- Capture leads automatically with name, contact info, and service details.
- Continue chats via text so you never miss a conversation
- Respond with personalized answers based on your FAQs and services or you can use me to scan your website to find the correct response.

DREW (REVIEWS)

AI CUSTOMER REVIEWS MANAGER

GOAL: Generate reviews on autopilot, craft perfect replies with AI and get recommendations to boost your reputation.

- Send automated personalized review requests based on customer interactions.
- An AI-driven review request system that uses past data to choose the most effective message and channel.
- Reply with on-brand, personalized responses to all reviews.
- Automated, AI-generated review responses using the reviewer's shared details.

TREVOR (COMPETITORS)

AI COMPETITORS ANALYST

GOAL: Use advanced AI to analyze and benchmark competitors for a market edge.

- Uses AI to automatically detect your competitors by industry & location, eliminating guesswork and empowering precise strategic planning.
- Delivers real-time comparisons, like reputation scores & customer sentiment, and provides AI-generated SWOT analyses and actionable recommendations.
- Monitors competitors' social activity to inform and optimize your own social strategy.

LISA (LISTINGS)

AI LISTINGS & LOCAL SEO EXPERT

GOAL: Create compelling profiles on the top traffic sites and gain insights to boost local search rankings.

- Ensures your business listings are accurate, consistent, and optimized across various online directories.
- Offers location-specific GBP optimization tips with SEO impact, data, reach, and affected locations.
- The listings recommendations can be filtered and applied one at a time or in bulk.

NOELLE (SOCIAL MEDIA)

AI SOCIAL MEDIA MANAGER

GOAL: Manage posts, presence, and customer engagement across locations from one AI-powered dashboard.

- Publishes brand-aligned, personalized, and high-performing social content at scale.
- Responds to social comments, DMs, and mentions in real time with personalized responses.
- Schedule posts across accounts and track them in a visual calendar with filters for date, status, channel, location, and region.

DWIGHT (INSIGHTS)

AI INSIGHTS STRATEGIST

GOAL: Boost your brand with AI insights to measure, benchmark, and grow your reputation.

- Aggregate data from reviews, surveys, and search performance to measure customer sentiment and discoverability.
- Track your score and other key reputation metrics across locations and time periods.
- Benchmark your business against industry standards & competitors to identify what's working and what's not.
